

Akfen REIT Achieves the Highest Score in the SME Category in CDP 2024 Climate Change and Water Security Reporting

Akfen REIT has taken another significant step in integrating environmental responsibility into its business processes, achieving remarkable success in the 2024 climate change and water security assessment conducted by the Carbon Disclosure Project (CDP), one of the world's most prestigious environmental reporting platforms.

Accordingly, Akfen REIT received a B score, the highest rating in the SME category for Climate Change. This achievement highlights the company's strong approach to environmental management and its long-term commitment to sustainability.

Ece Demirpençe, General Manager of Akfen REIT, commented on this success:

"As Akfen REIT, we are committed to integrating environmental responsibility into our business processes, taking further steps each year, and aligning with global sustainability trends."

The Carbon Disclosure Project (CDP), one of the world's leading environmental reporting platforms, has announced its 2024 climate change and water security rating results.

As part of this evaluation, Akfen REIT achieved a significant success by securing a B score, the highest rating in the SME category for Climate Change. This result underscores Akfen REIT's dedication to environmental responsibility and its long-term sustainability commitments, further reinforcing its leadership in environmental management.

A Leading Global Environmental Reporting Platform (CDP) is the world's largest data platform, assessing corporate performance in critical environmental areas such as climate change, water security, and deforestation, while promoting transparency in reporting. By achieving a B score, the highest rating in the SME category for Climate Change, Akfen REIT has once again proven its strong environmental management stance.

AKFEN REIT GENERAL MANAGER ECE DEMİRPENÇE: "CONTINUING TO CONTRIBUTE TO THE FUTURE"

Ece Demirpençe, General Manager of Akfen REIT, shared her thoughts on this achievement: "This success reflects Akfen REIT's commitment to making environmental responsibility a core part of our business strategy and fully integrating sustainability into our operations. Climate change and natural resource conservation have become global priorities. As Akfen REIT, we are not only focused on minimizing our environmental impact but also on adopting the best sustainability practices in the industry to contribute to a more sustainable future. In line with global sustainability trends, we continue to expand our efforts in innovative solutions and green technologies, ensuring that environmental responsibility remains at the heart of our business processes."

As Akfen REIT continues to contribute to global sustainability efforts, it remains committed to integrating environmental responsibility into its business operations and achieving its long-term sustainability goals. The company aims to further strengthen its leadership in environmental management, not only through its current achievements but also through its long-term commitments.
